Chapter 1

The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

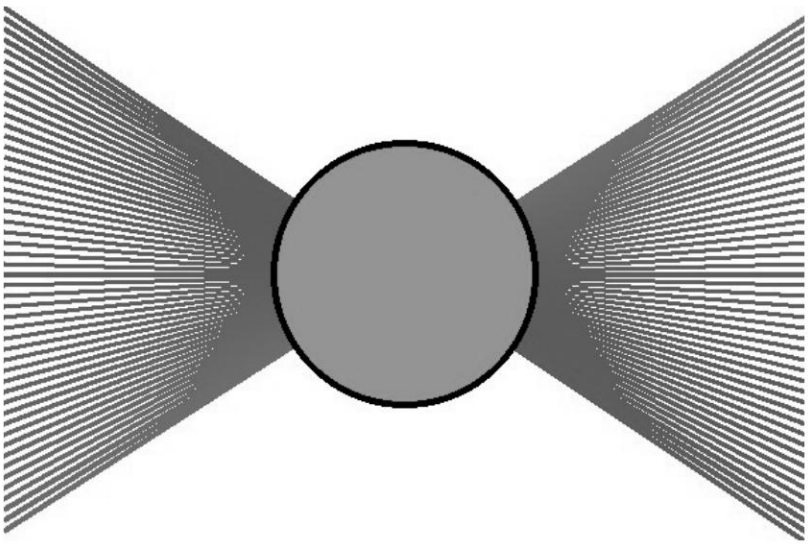

Figure 1: A picture of a sunset over lines.

- First point about foxes.
- Second point about dogs.

The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully. The paragraph then carries on over the page break and into the next page where it continues without

interruption until it finally ends here. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

Two Columns

Left column paragraph 1. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

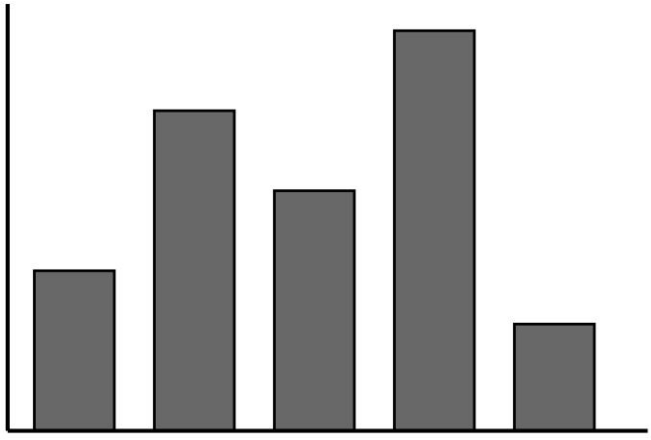

Left column paragraph 2. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

Left column paragraph 3. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

Right column paragraph 1. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

Right column paragraph 2. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

Right column paragraph 3. The quick brown fox jumps over the lazy dog while the committee deliberates on matters of considerable importance. Every afternoon the river carried small boats past the old mill, and the miller counted them carefully.

Results

Water is H_2O and the yield was 10^3 per litre. As shown in figure 1 and table 1, the results hold.[1] The rest of this paragraph is long enough to wrap onto a second line of text in the box.

Item	Count	Share
Apples	12	40%
Pears	9	30%
Plums	6	20%
Figs	3	10%

Table 1: Fruit counts from the orchard.

```
def answer():
    return 42
```

See chapter 1 for the background to all of this.

[1] A footnote about the results.
